Mrs. F. H. Washburn was visiting friends at Pomona for the week-end.

Prof. A. C. Moores, of Knoxville, was here Saturday arranging for certain experimental work on the 12 acre lot on the Jas. Smith farm, that is being used by the state agricultural department.

Leonard Potter was in from his farm, four miles north of town, Monday for the first time in four weeks as he has been down with influenza. All told, he has three cases in his family.

Rev. Robert Hall was here from Fentress County last week, shaking hands with old friends.

If you have never tried a WATERMAN pen it is likely you don't know just how handy, useful and pleasant it is to use a fountain pen. See them at the Chronicle office. Nothing better made in fountain pens and few equal the WATERMAN.

It is claimed that seed corn will be short in some parts of the state. That will not be the case in this section, we feel, especially with those farmers who used their usual care in selecting seed last fall. It might be as well for farmers to investigate their supply of seed corn for conditions may not be so good as though in all cases.

New shipment of WATERMAN pens expected any day at the Chronicle office.

W. Clay Brown, who is now at Camp Taylor, near Louisville, Ky., is expected home on a furlough in about two weeks.

Latest news from L. T. Thurman is that he is getting along very well and Dr. Wilson fully expects him to regain his health. His improvement is slow, but it has now reached the stage where he is expected to gain more rapidly than in the past.

J. L. Anderson and sons were in town from Clifty last week.

Mrs. G. F. Brookhart came up from Peavine a few days ago to stay until her mother, Mrs. S. C. Bishop, returns from Birmingham, Ala.

WALL PAPER—A full line; come in and see my line. W. F. BANDY. 1-7-tf.

This office recently turned out a 5,000-duplicate order for the Southern States Lime Corporation, Charleston, S. C. We now have a 7,000 order for Santa Rosa Merchandise Company, Santa Rosa, New Mexico. There are other concerns within a thousand miles of Crossville who would be better served if they would place their orders with the Chronicle.

L. W. Martin was home from Clark-range for the week-end.

Mrs. Cecil M. McBride has made application as postmaster at Dorton. The papers were sent to Congressman Cordell Hull and with his usual promptness he took the matter up and the appointment will very likely be made within a short time.

Get rice paper for wrapping butter at the Chronicle office. It is cheap and much better than a rag.

Bring your crippled watches and broken jewelry to the Chronicle office and Bishop will send them away and have them made like new and you can pay charges when they return.

We are in receipt of a letter from S. A. Elmore, who moved his family last fall to Jacksonville, Fla. He says he finds about the same kind of people there that he left here, but is wanting to hear from his old home and friends and asks that the Chronicle be sent him. He sends greeting to his Cumberland county friends.

The indoor closet is not a luxury, but a necessity, both for old and young, and guaranteed perfectly odorless. Inquire at this office 2-25-tf

W. C. Rockwell of Chicago, has contracted for a tract of land lying in the Peavine neighborhood that now belongs to "Buck" Smith. The tract contains 640 acres and is well timbered. The contract price is \$6,000, according to a statement of Mr. Smith. The deed is to pass and the deal be closed within a few weeks. We are informed that Mr. Rockwell is anxious to get the tract as soon as possible. This tract formerly belonged to Dick Kindrick and he traded it to Mr. Smith for certain interests Mr. Smith had in or near Buhl, Idaho.

FOR SALE—Ford touring car, has been run very little, practically new, 1914 model. Frank Slater, Crossville. 3-3-4t.

The heavy rain of last Friday night is the worst that has visited this section in a long time. The Antioch bridge over Daddys Creek was swept away and is practically a total loss. It was erected a few years ago at a cost of around \$400 to \$500. Other bridges in the county have also been swept away or damaged. The Memphis-To-Bristol pike from Daysville east is said to have been seriously damaged and will require the expenditure of several hundred dollars to make it even reasonably passable.

Stayed—Eight head of hogs. Marked with crop and underbit in left and smooth crop off right ear. Reasonable reward for information leading to recovery. Ervia Turner. 3-3-t.

Work Savers.

Use plenty of newspapers about the kitchen, spreading them on the floor when anything is likely to spatter. It is easier to gather them up than to clean up. If there is a kitchen range not in use in the summer time it is well to burn these papers every few days to prevent dampness and rust. If the kitchen has but a gas range, then a good-sized waste basket should be kept and the papers disposed of in whatever way is best.

J. Tom Dannel was here from Rockwood Friday.

Dillon Shaver, who moved his family here from Maryland last week, has arranged to open a feed store in the rear room of the general store of Garrison & Garrison. Mr. Shaver plans to be ready for business the last of this week.

Mrs. J. P. Anderson and little daughter are expected home from Sanford Florida, about April 1 to pass the summer. Mr. Anderson is engineer on a railroad there drawing a good salary, but because of the excessive heat of the summers, Mrs. Anderson and little girl will pass the summer here with her parents, Mr. and Mrs. E. B. Jones.

The Farmers' Milling Company, at the Qualls stand, is now ready to grind buckwheat, rye, corn and mill feed for the trade. They are also arranging to put in a planer. It is expected to arrive any day. The work of installing will be small and our people will soon be able to get lumber planed, tongued and grooved for flooring and siding made, which will prove quite a convenience. They are now preparing to put in a basement to their mill. It will be only 20x28 and will be used as an elevator bin to save time in getting the stock of grain to the cleaner and the storage bins on the second floor of the mill. They also have a complete roller mill ordered, which will be shipped within the next few weeks and on its arrival they will be prepared to do all kinds of custom grinding and make as good flour as is turned out anywhere.
